These Report of Registration statistics are compiled and issued under authority of Elections Code section 6460, and represent the number of persons registered to vote as of May 5, 1986, the close of registration for the June 3, 1986 Primary Election.

The number of persons registered to vote in this Direct Primary Election, 12,208,084, reflects the growth of California and is, again, the greatest number of persons to register to vote in a primary election in California. The previous record registration figure for a primary election was 11,530,956, set in May, 1984.

The next Report of Registration figures will reflect the 29-day close of voter registration (October 6, 1986) for the general election and will be published shortly before that election.

The figures given are unofficial but represent a reasonable estimate of the eligible population.
