PREFACE

These Report of Registration statistics represent the number of persons registered to vote as of May 4, 1992, the close of registration for the June 2 primary election.

These registered voter figures show a record 13,569,248 registered voters, the highest total for a primary election, the second highest registration in the state's history. The record high registration was in October 1988 with 14,004,873 persons registered to vote in the presidential general election.

Registration by County	1
Registration by Political Subdivision by County	3
Registration by Congressional District	23
Registration by State Senate District	26
Registration by State Assembly District	29
Registration by State Equalization District	34

Note: The figures under the heading 'Eligible', the second column on Pages 1, 2, and 3, represent our estimate of the number of people in California who are eligible to register to vote as of October 9, 1990.

Population estimate data from the Population Research Unit of the Department of Finance were used to estimate each county's total population. Subtracted from this total was the estimated number of persons ineligible for registration and voting because of age, felony convictions, and citizenship status. The number of non-citizens, aged 18 and over, is the number reported for each county by the Bureau of the Census in their summarization of the results of the 1990 Decennial Census. The figures given are unofficial but represent a reasonable estimate of the population eligible to register and vote in California elections.
