## Preface

These Report of Registration statistics are compiled and issued under authority of Elections Code section 607, and represent the number of persons registered to vote as of October 11, 1988, the close of registration for the November 8, 1988 General Election.

The number of persons registered to vote in this General Election, 14,004,873, is an 11.7 percent increase over the 12,537,207 registered for the primary election. The record registration figure for a general election was 13,073,630, set in October, 1984.

The next Report of Registration figures will reflect the cancellation of the affidavits of registration for all nonvoters who moved outside their county of residence or for whom any mailing was returned by the Post Office as undeliverable, and will be published in March, 1989.

| Change in Registration by Equalization Districts  | 55  |
| NON-QUALIFIED POLITICAL BODIES                    | 56  |

Note: The figures, called 'Eligible', set forth in Column 2 on Pages 4 through 6, represent the Voting Age Population Eligible to Register to Vote

Source data, from the Population Research Unit of the Department of Finance, was used to estimate each county's total population as of October 11, 1988. Subtracted from this total were: the estimated number of persons ineligible for registration because of age, felony convictions, and citizenship status. The figures given are unofficial but represent a reasonable estimate of the eligible population.
