PREFACE

These Report of Registration statistics represent the number of persons registered to vote in the November 3rd presidential general election.

This report shows a record 15,101,473 voters on the rolls, the highest total for any election in the state's history. The previous record's highest registration was 14,004,873 at the November 1988 presidential general election.

The next Report of Registration figures will be issued in March of 1993.

March Fong Eu Secretary of State

Table of Contents

| Registration by County 1 |
|---|
| Change in Registration by County |
| Registration by Political Subdivision within County |
| Registration by Congressional District |
| Change in Registration by Congressional District |
| Registration by State Senate District |
| Change in Registration by State Senate District 40 |
| Registration by State Assembly District 41 |
| Change in Registration by State Assembly District |
| Registration by State Equalization District |
| Registration by State Appellate District |
| |
| Registration by County of Selected Non-qualified Political Bodies |

Note: The figures under the heading 'Eligible', the second column on Pages 1, 2, and 3, represent our estimate of the number of people in California who are eligible to register to vote as of September 4, 1992.

Population estimate data from the Population Research Unit of the Department of Finance were used to estimate each county's total population. Subtracted from this total was the estimated number of persons ineligible for registration and voting because of age, felony convictions, and citizenship status. The number of non-citizens, aged 18 and over, is the number reported for each county by the Bureau of the Census in their summarization of the results of the 1990 Decennial Census. The figures given are unofficial but represent a reasonable estimate of the population eligible to register and vote in California elections.
