PREFACE

These Report of Registration statistics represent the number of persons registered to vote as of September 4, 1992.

These registered voter figures are those associated with the several counties'
Voter Registration Files used by the state to mail out the State Ballot
Pamphlet to voters for use at the November 3, 1992 Presidential Election.

The next Report of Registration figures will reflect the number of persons in California who are registered and eligible to vote at the Presidential Election.

Registration by Political Subdivision within County	5
Registration by Congressional District	
Registration by State Senate District	
Registration by State Assembly District	
Registration by State Equalization District	18
Registration by State Appellate District	50
Registration by County of Selected Non-qualified Political Bodies	52

Note: The figures under the heading 'Eligible', the second column on Pages 1, 2, and 3, represent our estimate of the number of people in California who are eligible to register to vote as of September 4, 1992.

Population estimate data from the Population Research Unit of the Department of Finance were used to estimate each county's total population. Subtracted from this total was the estimated number of persons ineligible for registration and voting because of age, felony convictions, and citizenship status. The number of non-citizens, aged 18 and over, is the number reported for each county by the Bureau of the Census in their summarization of the results of the 1990 Decennial Census. The figures given are unofficial but represent a reasonable estimate of the population eligible to register and vote in California elections.
